

Riverside Public Utilities operates in a dynamic, historic community that offers its residents a wide selection of things to do. Whether it's a visit to the renown Mission Inn, or the City's numerous parks and museums, there's plenty to choose from. The city is also an important financial and judicial center in the Inland Empire, with a large and diverse economy that has the largest number of jobs and businesses within the region.

Be a part of supplying the electric and water needs of a rapidly growing community by considering a career with Riverside Public Utilities (RPU). With over 490 employees, we're comprised of four divisions: Water, Energy Delivery, Finance/Customer Relations and Resources.

RPU offers a wide array of career choices from entry level to professional. Depending on your area of interest, there are a number of career paths available to you. For example, start out as an Engineering Aide, and your career path could include advancement up to a Senior Engineer at a higher salary. We have many careers to choose from, and offer challenging and fulfilling opportunities.

SENIOR WATER ENGINEER

WATER | ENERGY | LIFE

Offering You the Power of Opportunity

The Position

Under general direction, this position will perform supervisory and/or professional water engineering work in the planning, design, investigation, and construction of water utility projects. This is the top level in the water engineering series. Work is at the highest level of engineering and may involve the direct supervision of professional and technical personnel. Assignments are general and of continuing nature, requiring the exercise of independent judgment and initiative in scheduling, assigning, and coordinating the work with that of other units. Incumbents are also expected to perform the most complex professional engineering work, requiring a substantial level of professional training and experience.

The Utilities Senior Water Engineer is expected to

- Perform complex studies of technical, environmental, and economic feasibility, engineering field studies, and related studies pertaining to proposed and existing system facility improvements
- Have knowledge of modern methods and techniques used in the design and construction of a wide variety of water utility projects
- Have knowledge of applicable laws of regulatory codes relevant to design and construction of water utility facilities

Educational Requirements

- A bachelor's degree in civil or mechanical engineering from an accredited college or university
- Four years of experience in professional water engineering work comparable to that of an Utilities Assistant/Utilities Associate Engineer in the City of Riverside, *or*
 - A Bachelor's degree from an accredited college or university in a closely related area
 - Five years of experience performing professional water utility or related engineering work comparable to that of an Utilities Assistant/Utilities Associate Engineer in the City of Riverside

A Master's degree in a field related to water utility engineering is *highly* desirable.

Necessary Special Requirements

- Possession of an appropriate, valid class "C" California Motor Vehicle Operator's License
- Registration in California as a Professional Engineer

Benefits

Employees of the City of Riverside are eligible to receive a comprehensive benefit package consisting of Medical and Dental prepaid plans. Additional benefits can include:
